

Digital Pedagogies for the 1:1 Classroom

CTE eLearning Series

The rise of 1:1 computing in K-12 schools (in which all students have a laptop or tablet computer) is radically changing how teachers teach and students learn. The Center for Technology in Education (CTE) and Student Education Association (SEA) will host an open house showcase of exciting innovations in classroom technologies. Short presentations and digital poster sessions will allow guests to meet with other educators and explore new technologies.

INTENDED AUDIENCE: SEA members, teacher education students, teacher education faculty, and local teachers

WHEN: Thursday October 3rd, 2013, 7:00-9:00 p.m.

WHERE: The CTE iStudio, West Quad 407

Currently Scheduled Demonstrations and Exhibits:

- Google Hangouts for Blended Learning
- Learner Response Systems
- 1:1 Leadership in K-12 Schools
- Video Reflection

Additional Presenters are Still Welcome

If you would like to exhibit a classroom technology project or technology, please submit a proposal via email:
