

## First Grade Mathematics

These lessons will be conducted over the first 9 weeks of school. Each lesson is just one lesson within the math unit. The students will be learning to count money, tell time and connect ordinal numbers to a set of items.

**Objective:** Students will identify the values of 3 sets of various coins given by their teacher.

**Standard:** 1.M.3: Find the value of a collection of pennies, nickels, and dimes

**Bloom's Taxonomy: Remembering**

**Objective:** Students will demonstrate telling time on an analog clock to the nearest half-hour on two different occasions using the classroom clock throughout the day.

**Standard:** 1.M.2: Tell and write time to the nearest half-hour and relate time to events (before/after, shorter/longer) using analog clocks. Understand how to read hours and minutes using digital clocks.

**Bloom's Taxonomy: Applying**

**Objective:** Students will match a list of 10 items correctly to their corresponding ordinal number.

**Standard:** 1.NS.3: Match the ordinal numbers first, second, third, etc., with an ordered set up to 10 items.

**Bloom's Taxonomy: Understanding**
